

## Description of CSM 10

### **Design & Make**

This chimney is made from Heat Resistant Tempered Glass & Stainless Steel. It has Heat Resistant Tempered Glass Canopy & Stainless Steel body with Mirror Finish. Its Suction Capacity is 1000 m<sup>3</sup>/hr.

### **Lighting Systems**

It comes with 2 Halogen Lamps for better illumination. It comes with Baffle Filters for long life. **Optional Carbon Filters** are also available.

### **Suction Capacity**

Air Suction Capacity is the motor's capacity to absorb the odor and oily vapor and is measured as m<sup>3</sup> per hour. A higher suction capacity is needed where a lot of frying is involved. Homes associated with normal frying requires upto 400 cubic meter per hour capacity's chimney.

## **Highlights**

- Heat resistant tempered glass canopy
- Mirror finish stainless steel hood
- 1000m<sup>3</sup>/hr. suction capacity
- Halogen lamps for illumination
- Baffle filters for long life
- 200 watts motor
- Digital display

## **Specifications:**

<b>General</b>	
Colour	Black
Body Material	Heat Resistant tempered Glass & Mirror Stainless Steel
Control	Touch Panel
Lamp	Halogen Lamps
No of Lamps	2
Oil Collector	Yes
Remote Control	
No of speed setting	
Filter type	Baffle Filters
Noise Level	
Frequency	
Suction Capacity	1000 m <sup>3</sup> /hr
<b>Power and Voltage</b>	
Power	200 watts
Voltage	230 V
<b>In the box</b>	
Box Contents	Main Unit, User Manual
