

## **Description Of KSM 1**

### **Capacity**

With this 1.2L electric kettle, you can comfortably make delicious noodles, steaming cup of coffee, and tasty boiled eggs in a jiffy. No matter where you are, whether you are traveling, watching a late night movie at home or in your hostel room preparing for your exam, with this kettle you can make prepare and savour food within minutes.

### **Auto Shut-Off and Auto Keep Warm Function**

Just switch on this appliance and carry on with your work without worrying about overheating as this kettle comes with an auto shut-off feature. Once the water is boiled, this appliance automatically switches off and keeps the water warm for a long duration of time.

### **Lockable Lid**

To make your travel experience better and worthwhile, this kettle comes with a lockable lid to ensure that the liquid inside doesn't spill while you are traveling.

### **Power Consumption**

With this kettle, you don't have to worry about paying high electricity bills as this kettle consumes just about 1500 W of power.

## **Highlights**

- Concealed element
- Wide mouth for easy cleaning
- Automatic cut-off
- Stainless steel body
- Single touch lid locking
- 360° swivel power base
