

Description Of KSM 10

0.6 Litre Capacity

This kettle is of 0.6 litres capacity which gives ample space for boiling things in it at a time which helps to save time and electricity. With a translucent area, you can see the amount of water you need to add in this user-friendly electric kettle.

Automatic Cut-off

This kettle has a feature which automatically shuts off power when the water has come to a boil. This is a safety feature and also helps to protect the kettle from itself.

Single Touch Lid Locking

For daily use, this kettle is with this perfect option and it allows you to use it regularly in a hassle free manner.

Ergonomically Designed Handle And lid

This durable kettle comes with a well-designed handle for better grip while holding it and makes it easier to hold even if it is hot. The lid locks so that there is no spillage of water.

Compact Sized Travel Kettle

Because of the fact that this is a travel friendly kettle, it becomes highly essential if you go out for trips and vacations very often. Moreover, if you're a sucker for fresh and instantly brewed coffee, then this long-lasting kettle is tailor made to suit your needs. It has been designed to keep the portability aspect under consideration. No wonder it is light weight and comfortable to carry around.

Other Important Features

This ergonomic design doesn't take too much space and can also be stored easily. Bring home the kettle and bask in the glory of instant tea which will satiate all your senses. This is why Prestige is such a household brand these days with its widespread popularity throughout the nation.
