

Description Of RCM 14

Capacity

This rice cooker comes with a capacity of 4.2 liters which is ideal for cooking for a family of 7-8. It uses the principle of steam for cooking which retains the nutrients of your cooked food and the pressure makes cooking less time consuming.

Material

Made from Aluminium with lids made from stainless steel, the rice cooker is provided with a non-stick coating which is always helpful. This cooker with detachable power cord prevents food from burning and uses less oil during cooking making food healthy and tasteful. The cool touch handles provide good grip for carrying and indicator lights help in cooking process. It comes with a detachable power cord.

Compatibility

This cooker operates on electricity. It uses 1650 Watt of power to operate which provides speedy cooking. You can easily carry this cooker on your outdoor trips and events where electricity supply is available and enjoy tasty hand cooked food. Gift this cooker to your friends and loved ones on any occasion and it will remind them of your true love and care every time they will cook tasty meal in this.

Safety

Being presented by a trustworthy brand, this electric cooker is safe to use as it has been designed keeping all safety standards in mind. You should keep it away from small children as it uses electricity as power for cooking which can prove to be hazardous if not handled properly.
